US-09-764-877-2804

i Sequence 2804, Application US/09764877

Patent No. US20020147140A1

GENERAL INFORMATION:
ITILE OF INVENTION: Nucleic Acids, Proteins, and Antibodies

FILE REFERENCE: PC005

F

```
TYPE: DNA
CORGANISM: Homo sapiens
FEATURE:
NAME/KEY: CDS
LOCATION: (95)...(928)
US-10-037-270-546

Sequence 2804, Application US/09764877

Patent No. US20020147140A1

GENERAL INFORMATION:
APPLICANT: ROSEN et al.
TITLE OF INVENTION: Nucleic Acids, Proteins, and
FILE REFERENCE: PC005
CURRENT APPLICATION NUMBER: US/09/764,877
CURRENT FILING DATE: 2001-01-17
Prior application data removed - refer to PALM of NUMBER OF SEQ ID NOS: 4031
SOFTWARE: Patentin Ver. 2.0
SEQ ID NO 2804
LENGTH: 9732
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          FEATURE:
